ATTACHMENT TO APPLICATION
FOR SEARCH WARRANT

REF:

Accounts associated with devices that were inside the following geographical area:
NW Corner 35.792339, -78.743169, NE Corner 35.792011, -78.737564, SE Corner 35.789622, -78.737550, SW Corner 35.789922, -78.744153 AND A SECOND GEOGRAPHICAL AREA DESCRIBED BELOW ON 10/11/2018, During the following time frame: 0315 hours Eastern through 0415 hours Eastern on 9/13/2018 AND 0345 hours Eastern through 0445 Eastern on 9/19/2018, data maintained on computer servers controlled by Google, Inc.

ATTACHMENT I- PROPERTY/EVIDENCE TO BE SEIZED:

The facts and circumstances outlined in this affidavit brought on by Detective Brad Winston suggest that there is probable cause to believe evidence of the commission of the crime of **Robbery with Dangerous Weapon**, a violation of North Carolina General Statute **14-87** (hereinafter "Subject Offense), may be found within computer servers maintained or controlled by Google, Inc. or Google Payment Corp. Such accounts are described further in ATTACHMENT II (hereinafter "the Accounts") stored at premises controlled by Google, Inc., a company that accepts service of legal process at 1600 Amphitheatre Parkway, Mountain View, California 94043. The following material is sought for the time period of **0315 hours Eastern through 0415 hours Eastern on 9/13/2018 AND 0345 hours Eastern through 0445 Eastern on 9/19/2018:**

1. For each type of Google account that is associated with a device that was inside the geographical area described further in ATTACHMENT II, **during the time frame listed above**, Google will provide "**anonymized information**" regarding the Accounts that are associated with a device that was inside the described geographical area during the time frame described above. This "**anonymized information**" will include a numerical identifier for the account, the type of account, time stamped location coordinates and the data source that this information came from if available. The information initially provided by Google will not contain any further content or information identifying the user of a particular device or account.
2. Law enforcement officers will review this "**anonymized information**" provided by Google, Inc. in an effort to narrow down the list of accounts associated with devices identified in the "**anonymized information**". Law enforcement officers will attempt to narrow down the list by reviewing the time stamped location coordinates for each account and comparing that against the known time and location information that is specific to this crime.
3. Law enforcement officers will return a list that they have attempted to narrow down. This list will still be identified by the "**anonymized information**" described above. After this review by Law Enforcement and upon request, Google, Inc. shall produce "contextual data points with points of travel outside of the geographical area" described further in ATTACHMENT II of this Application for Search Warrant. **The time frame will be expanded** for this production of "contextual data points with points of travel outside of the geographical area" for 30 minutes before AND 30 minutes after the initial search time period of **0315 hours Eastern through 0415 hours Eastern on 9/13/2018 AND 0345 hours Eastern through 0445 Eastern on 9/19/2018**. This expanded time frame will be from **0245 through 0445 Eastern on 9/13/2018 and 0315 through 0515 Eastern on 9/19/2018**. Google Inc. shall provide this additional information to Law Enforcement for review.
4. Law Enforcement officers will review this additional information along with the "**anonymized information**" and will attempt to narrow down the list by comparing this additional information regarding travel and time against the known time and location information that is specific to this crime.
5. After review and upon request by Law Enforcement, Google Inc. shall provide identifying account information / CSI for the account/s requested by Law Enforcement. This identifying account information / CSI shall include all of the following that are available: user name and subscriber information to include date of birth if available, account type and account number, email addresses associated with the account, electronic devices associated with the account and their identifying make, model and other identifying numbers, telephone numbers associated with the account including telephone numbers used to set up the account, verify the account or to receive assistance with the account, and Google Voice phone numbers associated with the account.

also collect location data from non-Android devices if the device is registered to a Google account and the user has location services enabled. The company uses this information for location-based advertising and location-based search results and stored such data in perpetuity unless it is manually deleted by the user. This location information is derived from GPS data, cell site/cell tower information, Bluetooth connections, and Wi-Fi access points.

This applicant knows that location data can assist investigators in forming a fuller geospatial understanding and timeline related to a specific criminal investigation; and may tend to identify potential witnesses and/or suspects. Such information can also aid investigators in possibly inculcating or exculpating persons of interest.

Additionally, location information can be digitally integrated into image, video, or other computer files associated with a Google account and can indicate the geographic location of the accounts user at a particular date and time (e.g., digital cameras, including on cellular telephones, frequently store GPS coordinates indicating where a photo was taken in the "metadata" of an image file).

This applicant respectfully submits that there is probable cause to believe that information stored on the Providers' servers associated with the Google accounts and/or devices located at the location and timeframe specified in ATTACHMENT II, will contain evidence, fruits and instrumentalities of the Subject Offense¹

The information sought from Google regarding the Subject Accounts, specified in ATTACHMENT I to this warrant, will assist in identifying which cellular devices were near the location where the crime being investigated occurred during the time frame it is currently believed to have occurred. This information may assist law enforcement in determining which persons were present or involved with the Subject Offense under investigation.

The applicant would respectfully request the court issue a search warrant for the material outlined in ATTACHMENT I of the above-mentioned premises controlled by Google.

All information and facts provided in this affidavit are true and accurate to the best of the applicant's knowledge. The applicant feels that there is sufficient probable cause for the issuance of a search warrant for the evidence, fruits, and instrumentalities of violations of Subject Offense which may be contained within the furnished records.

¹ The State of North Carolina maintains that the information sought herein consists entirely of "record[s]" other than the "contents of communications" which is subject to the provisions outlined in 18 U.S.C. § 2703(d). Such records, requires only a showing that there are reasonable grounds to believe that the information sought is relevant and material to an ongoing criminal investigation. *See* 18 U.S.C. § 2703(c)(1)(A). Despite this, Google has indicated that it believes a search warrant, and not a court order, is required to obtain the location data sought in this application. Although the Government disagrees with Google's position, because there is probable cause to believe that the information sought herein will contain evidence of the criminal offenses specified in this affidavit, the Government is seeking a search warrant in this case.

APPLICATION

FOR ORDER TO PREVENT DISCLOSURE TO THE USERS WITH ACCOUNTS INVOLVED OF THE EXISTENCE OF A SEARCH WARRANT RELATED TO GOOGLE ACCOUNTS ASSOCIATED DEVICE INSIDE THE FOLLOWING AREA, DURING THE FOLLOWING TIME FRAME: NW Corner 35.792339, -78.743169, NE Corner 35.792011, -78.737564, SE Corner 35.789622, -78.737550, SW Corner 35.789922, -78.744153 AND A SECOND GEOGRAPHICAL AREA DESCRIBED BELOW ON 10/11/2018, During the following time frame: 0315 hours Eastern through 0415 hours Eastern on 9/13/2018 AND 0345 hours Eastern through 0445 Eastern on 9/19/2018 SAID SEARCH WARRANT DATED 11/14/2018.

NOW COMES Detective Brad Winston of the Raleigh Police Department, and petitions the Court to authorize an order to prevent disclosure of the search warrant dated 11/14/2018 to the users with accounts involved. Said search warrant authorizing the search of Google servers for accounts associated devices that were inside the following area, during the following time frame: NW Corner 35.792339, -78.743169, NE Corner 35.792011, -78.737564, SE Corner 35.789622, -78.737550, SW Corner 35.789922, -78.744153 AND A SECOND GEOGRAPHICAL AREA DESCRIBED BELOW ON 10/11/2018, During the following time frame: 0315 hours Eastern through 0415 hours Eastern on 9/13/2018 AND 0345 hours Eastern through 0445 Eastern on 9/19/2018

Pursuant to 18 U.S.C. § 2705(b), and 3103a(b), this applicant requests that the proposed order direct the provider, and all other communications providers, persons or entities who are obligated by the proposed warrant to provide assistance to the investigative agency, not to disclose in any manner, directly or indirectly, by any action or inaction, to the subscriber(s) or to any other person, the existence of the proposed warrant, in full or redacted form, the existence of the legal request or the existence of this investigation, unless otherwise ordered by this Court; and that the identity of any account users included within the search results may be redacted from any copy of the proposed warrant to be served on any service provider or other person.

The existence and scope of this ongoing criminal investigation is not publicly known. As a result, premature public disclosure of this affidavit or the requested warrant could alert potential criminal targets that they are under investigation, causing them to destroy evidence, flee from prosecution, or otherwise seriously jeopardize the investigation. In light of the serious nature of the crime under investigation, premature revelation of this investigation may alert dangerous targets that they have been identified by others and endanger the safety of witnesses who have been cooperating with the Government.

Accordingly, there is reason to believe that, were the Provider to notify subscribers or users of the Subject Accounts or others of the existence of the warrant, the investigation would be seriously jeopardized. Pursuant to 18 U.S.C. §

ATTACHMENT III - PROBABLE CAUSE AFFIDAVIT:

The Affiant swears to the following facts to establish probable cause for the issuance of a search warrant:

The Raleigh Police Department and other local law enforcement agencies are investigating a pattern of armed robberies from McDonalds and Bojangles restaurants. At least seven (7) robberies are thought to be related and part of this pattern. It appears that at least two (2) suspects are involved, as video surveillance has revealed that one suspect goes into the restaurant to commit the robbery while a second suspect waits in a getaway vehicle nearby. The suspect description and M.O. are similar in each of these cases. On 9/13/2018 between 0355 and 0406 hours Eastern, the McDonalds at 601 Corporate Center Drive in Raleigh was robbed and then on 9/19/2018 between 0410 and 0430 hours Eastern, the Bojangles at 1000 Claren Circle in Morrisville was robbed. The male suspect that entered both of these restaurants to commit these robberies is shown on video wearing what appears to be the same shirt during both robberies. These two robberies are part of this pattern of robberies that are being investigated.

At the robbery of the McDonalds at 601 Corporate Center Drive, Raleigh, the suspect accosted the manager that arrived to open the restaurant and forced them to give him money from the safe inside the restaurant. The suspect was armed with a pistol that the suspect pointed at the manager during this robbery. The suspect stole money from this McDonalds during this robbery. The suspect forced the manager into a cooler before the suspect fled the scene. At the robbery of the Bojangles at 1000 Clare Circle, Morrisville, the suspect accosted the manager that arrived to open the restaurant and forced her to give him money from the safe inside the restaurant. The suspect was armed with a pistol that the suspect pointed at the manager during this robbery. The suspect stolen money from this Bojangles during this robbery. Again, the suspect forced the manager into a cooler before the suspect fled the scene. Significant efforts to identify the suspects involved in these robberies have not yet proven who is involved.

This applicant knows that a cellular telephone or mobile telephone is a handheld wireless device primarily used for voice, text, and data communication through radio signals. Cellular telephones send signals through networks of transmitter/receivers called "cells" or "cell sites," enabling communication with other cellular telephones or traditional "landline" telephones. Cellular telephones rely on cellular towers, the location of which may provide information on the location of the subject telephone. Cellular telephones may also include global positioning system ("GPS") or other technology for determining a more precise location of the device.

This applicant also knows that Google is a company which, among other things, provides electronic communication services to subscribers, including email services. Google allows subscribers to obtain email accounts at the domain name gmail.com and/or google.com. Subscribers obtain an account by registering with Google. A subscriber using the Provider's services can access his or her email account from any computer/device connected to the Internet.

This applicant knows that Google has also developed a proprietary operating system for mobile devices, including cellular phones, known as Android. Nearly every cellular phone using the Android operating system has an associated Google account, and users are prompted to add a Google account when they first turn on a new Android device.

Based on this applicant's training and experience, this applicant knows that Google collects and retains location data from Android-enabled mobile devices when a Google account user has enabled Google location services. Google can

For similar reasons, I respectfully request that the accompanying warrant and all papers submitted herewith be maintained under seal until the Court orders otherwise, except that the Government be permitted without further order of this Court to provide copies of the warrant and affidavit as need be to personnel assisting it in the investigation and prosecution of this matter, and to disclose those materials as necessary to comply with discovery and disclosure obligations in any prosecutions related to this matter.
